~~Turner Brothers Drycleaning~~
~~OKB 101-856521~~

Dear Paul:

This letter transmits a preliminary assessment for the Turner Brothers Trucking Site (OK05061). This site has undergone a variety of investigative activities in the past. The Oklahoma Water Resources Board is considering the granting of a permit to discharge stormwater runoff. This permit would allow the OWRB to closely monitor runoff from the pipeyard for general chemical indicators and some specific metals.

RCRA has also become involved at the site. One soil sample analysis registered lead in levels high enough to be considered hazardous waste.

It is my opinion that any further action under the PA/SI Program be delayed until it is determined what actions will be taken by RCRA. It might also be appropriate to determine if all areas of concern will be addressed under RCRA.

Thank you for your assistance. If you have any questions, please call me at (405) 271-5338.

Sincerely,

Scott A. Thompson
